	atellite Reconnaissance Products (Reference:
COMOR-D-49,	19 September 1961, Draft)
2. The COMOI	R had a preliminary discussion of the reference
	SA comments previously distributed to the mem-
bers as	21 September 1961, it having been agreed by
	neral Breitweiser that such discussion might  Committee agreed to take into account the data
· -	ented at the meeting, to study the matter further,
_	olution to the problem at the next meeting.
Ready Condition for II-	-2 ELINT Equipment (Reference: COMOR-D-50,
	ember 1961)
3	Intel/DDD combained that Comban NY '
	Intel/DPD, explained that System VI is a normal photo recce missions and therefore is always in
a ready condition.	OSI, after consideration felt that System
	ncern of Dr. Scoville but rather System VII, a
system which had been	
not be carried (except f	th at the same time photographic equipment could for tracker). indicated that there is
	ailable. The Committee recommended that the
System VII equipment s	should be kept in a ready condition, although it
_	uld not at this time foretell the circumstances in
_	because of factors bearing upon the base from which y case and the problem of seeking approval. Note
	nat the Collection Priorities Committee had earlier
viol opicii or die ract di	uently approved by the United States Intelligence
	be used peripherally
